Case Cruncher - AI-Powered Document Summarization for Lawyers

Tired of reading long document after long document, day after day? Need a way to be more productive and save your valuable time? Need a second set of eyes or help clarification?

Case Cruncher is an innovative and super simple AI software designed specifically to assist legal professionals in summarizing lengthy and complex documents. Case Cruncher helps lawyers get back to lawyering and helps remove some of the giant burdens of lengthy documents.

Products:

Only one product needed for now, make the other 3 invisible or delete.

Here is the temporary logo for a place holder and center it on the page.

Case Cruncher

How it works:

Step 1: Upload your PDF document.

Step 2: Select a quick question or ask your own.

Step 3: Quickly get your questions answered and review.

How do we do this?

By leveraging advanced natural language processing (NLP) techniques and deep learning algorithms, Case Cruncher can accurately identify and extract critical information, key facts, and arguments from legal texts. The software offers a user-friendly interface and customizable summary length, enabling lawyers to save time and resources, while increasing efficiency and accuracy in their work.

Pricing Section:

Legal Lite: \$99, 5 documents a month, 1 user

Legal Apprentice: \$199, 10 documents a month, 1 user

Legal PRO: \$299, 20 documents a month, 1 user

Legal Master: \$499 50 documents a month, 1 user

FAQ

Q- How does it work?

A- After creating an account, go to your dashboard and simply drag and drop your PDF, Ask the question, and receive the answer.

Q- What types of documents can Case Cruncher handle?

A- Version 1.0 can handle PDF's of any size, 1 page to 100 pages or more.

How does Case Cruncher ensure the confidentiality and security of my legal documents?

A- With V1.0 the best use is to use public disclosed court documents.

How accurate is the AI-generated summary, and can I rely on it for my legal work?

A- Extremely accurate, however, a simple review is always best until you get comfortable with the software. We suggest you take cases that you are familiar with already and test the software.

Are there any limitations on the size or length of documents that can be summarized?

A- Version 1 can handle a 1page to 100-page PDF or more.

Can I customize the summary length and focus based on my specific requirements?

A- We have "quick questions" to make the process quick but you can also ask your own personal questions and this can allow you to tailor the response specifically that you are looking for.

How does Case Cruncher stay up to date with the latest legal terminology and precedents?

A- At the moment Case Cruncher is a tool designed to help you highly reduce your reading time and leaves the legal bar-certified work up to the lawyer. We are simply a tool to help, not a replacement.

Is there a trial period or a free version available for testing the software before subscribing?

A- Yes, we offer a 14 day trial with limited usage.

How does the collaboration feature work, and can I share summarized documents with my team?

A- We have tons of ne super helpful features scheduled for V2.0 to help with collaboration, highlighting documents, printing and more. The goal is to help reduce your time as much as possible.

Is Case Cruncher compatible with my existing legal software and tools?

A- Case Cruncher is a stand-alone AI software that is used to help summarize and provide synopsis for a legal professional.

What kind of support is available for each subscription plan, and how can I reach the customer service team?

A- We offer full email support and phone support coming soon. We also offer a feedback and feature request so we can tailor this software specifically for the user and make it a 10/10

Footer, we need a legal section at the bottom that has the legal terms and conditions. Make the link and I will provide the content shortly for those, if you need a good example look at the footer on toolboxwidget.com under the legal and polices section.
