## Python Developer

Full-stack web development services for startups, SMEs, and individuals.

I help create or improve Tech products using Python, Django, and JavaScript. Whether you need a specialist with specific skills or have an idea but don't have enough experience in web development, I will help when looking for a reliable developer or technical partner to make your business work. As a result of our cooperation, you will get top quality development that will exceed your expectations.

For the last 7 years, I have been providing the following services:

- Software development
- Web app development
- Digital Transformation
- API development and integration
- POC and MVP development
- Cloud development Working worldwide,

I help customers from various business domains through coding, building a dev team, and filling expertise plus technological gaps.

My main tech stack:

- Python
- Django / Django REST
- Flask / FastAPI
- PostgreSQL
- Celery
- Docker
- Cloud (AWS, MS Azure, GCP, DigitalOcean, Heroku)
